

Dear Patient,

We are pleased to announce that Intracoastal Eye will resume providing comprehensive eye care on Monday, May 4th. This decision was made following guidance from the American Academy of Ophthalmology, as well as other leading health care organizations.

In order to maintain a healthy and safe office environment, we have implemented new procedures over the past several weeks.

1. If you have a fever, cough, cold, or sore throat, or if you have travelled out of state or been exposed to someone with COVID-19 in the last 2 weeks, please call the office to reschedule your appointment for a later date.
2. When you come to the office, please wear a mask. A homemade mask or even a handkerchief or bandana is perfectly fine.
3. Please do not bring anyone with you to your appointment unless necessary. Non-essential visitors may be asked to wait in their vehicle.

Intracoastal Eye is dedicated to ensuring everyone's safety and health. Our entire office is rigorously sanitized and disinfected throughout each and every day. We have arranged our waiting room and check-in/ check-out areas to allow for social distancing. Your health care team members will be wearing a mask while interacting with you.

We look forward to seeing you and attending to your eye care needs. Please do not hesitate to call if you have any additional questions about your visit.

Yours in good health,

Dr. Johnson, Dr. Kelley, and Staff
